

Completing the Family

Introducing Il Cannone Gold for Violin

Il Cannone violin strings are available as a series of three brand variants. Premium strings characterised by a clear and colourful sound with punch and projection at the core.

Il Cannone Medium & Soloist

We offer the Il Cannone strings in two varieties, medium and a soloist. By comparison, the Medium has a moderate tension, it is more noble and round, and often opens up the instrument sound. The Soloist version has a higher tension, and brings a fuller tone, with even more power, presence and focus with more resistance to the bow. Your choice of version depends upon your instrument and style of play.

Il Cannone Direct & Focused

A logical add on to the Il Cannone family. The aim is to offer new possibilities to optimise the instrument in sound and playability. In comparison to the above Il Cannone strings, Direct & Focused strings are clearer, more clean and bright, and more direct sounding. The Il Cannone strings, as above, have in comparison to these sets a warmer and darker sound. From a playability perspective, the Direct & Focused sets offer some more resistance to bow and fingers.

The 0.28 E string is wonderfully powerful and enhances the whole instruments sound, making the sound more dense and increasing focus. We recommend using this E-string in combination with the Il Cannone Direct & Focused.

Il Cannone Gold

The new Il Cannone Gold is our final add on to the Il Cannone family of strings.

These are the most powerful strings in the family, even though they have identical string tension to Il Cannone Soloist strings. The new Il Cannone Gold offer a unique strength for violin strings, enhancing the core sound of the instrument. They offer a vibrancy that makes the entire instrument resonate as if the strings are in perfect sync with the violin. The sound of these strings is truly glowing and crisp, robust and carrying.

Il Cannone Gold is the ultimate epitome of our premium Il Cannone violin strings family with a unique touch of lasting luxury.
